the best
styles
for your
party season

It's that time of year when everyone wants to catch up. Every weekend brings with it a new event – the promise of lunch, drinks or dinner with friends, family and colleagues. Party shoes will add glam and style to your special outfits, but it's not just skinny stilettos that will have you looking the part. Block heels, wedges, sparkly flats and cool brogues also have their place among your busy social calendar.

FESTIVE DRINKS

With a glass in hand and some good conversation, drinks are the perfect way to catch up with groups of people before everyone disperses for some family time over the end-of-year break. You know you'll be standing, but probably not for hours. Opt for a shoe that gives you a bit of height to elongate your look, but go for a solid heel with supportive straps to keep you happy on your toes.

THE WORK DO

The end-of-year work party is the perfect time to bring a little more personality into your outfits. Wear something fun but classy on your feet, avoiding anything that might make you feel unsteady when you hit the dance floor, or after a couple of drinks.

FAMILY LUNCH

Lunch with the family is usually a relaxed affair - it may even take the form of a day at the beach or picnic in the park. With guests of all ages likely to be invited, you might find yourself running around with kids, or just kicking back with older relatives. However the cards fall, consider a block heel or wedge to keep you stable on uneven ground.

NEW YEAR'S EVE

A time for celebration and enjoying yourself, New Year's Eve is about putting your best self forward as you step up to the new year. Look for a shoe that is both dazzling and impressive. Silver is the new gold, and new metallic shades will definitely catch the eye.

BRUNCH WITH FRIENDS

Rock your flats for an easy brunch with friends and then walk into town for a spot of shopping afterwards. Keep it fun with patterns, colours and cut outs that add interest and intrigue to a casual look.
